About the Campaign:

MCS brings together microfinance practitioners, advocates, educational institutions, donor agencies, international financial institutions, non-governmental organizations and others involved with microcredit to promote best practices in the field, to stimulate the interchanging of knowledge, and to work towards reaching our goals.

In 2005, the organization successfully completed a nine-year campaign, having reached nearly 100 million of the world's poorest families. The Campaign is now focused on two pressing goals for the period 2006-2015:

1. Working to ensure that 175 million of the world's poorest families, especially the women of those families, are receiving credit for self-employment and other financial and business services by the end of 2015;
2. Working to ensure that 100 million families rise above the US\$1 a day threshold adjusted for purchasing power parity (PPP), between 1990 and 2015.
